Common Misconceptions

"A place is reserved at my catchment school even if I don't apply there."
No! It's not automatic- you must apply

"I live in the catchment area, so I am guaranteed a place."
Sadly not, it depends how many families in catchment apply for a place at Newfield

"I have more chance if I only submit one preference."
You have no choice where you will end up placed if you don't get your first choice

"If I apply early, I have a better chance."
No, and you can change your preference up to the deadline
