

EduLink One Guidance

At Newfield School we regularly communicate using an app for smartphones and tablets; **EduLink One**. The app provides parents and carers with easy access to important school information.

EduLink One allows you to access information about your child or children with a single login. It also allows the School to communicate messages to you directly.

At present, you can access the following information via the **EduLink One** App:

- Achievement
- Behaviour
- Attendance
- Contact details/update student information
- Timetable
- School reports
- Letters home
- Exam timetables and entries
- Absence reporting

Getting Started with EduLink One

Access EduLink One from your Smartphone or tablet:

1. Go to your App store
2. Search for **EduLink One**
3. Download the free app
4. Open **EduLink One**
5. Enter **Newfield** into the School ID field
6. Enter your **Username** and **Password** and click Log In.

Access EduLink One from your computer or laptop:

1. Visit edulinkone.com
2. Enter **Newfield** into the School ID field
3. Enter your **Username** and **Password** and click Log In.

Once you have logged in you should see a picture of your son/daughter surrounded by lots of different icons. If you have multiple children in the school, their image should appear on the top right-hand side of the page.

We feel that EduLink One allows us to more effectively communicate with you, and ultimately, work together even more efficiently.

If you have any questions, please do not hesitate to get in to contact with Matthew Loxley (Data Manager) mloxley@newfield.sheffield.sch.uk
