

Newfield Options Videos

Please note that these videos were recorded last year when it was not possible to hold the Y9 Options Evening face to face. This year, as you are aware, this will go ahead on **Thursday 10 March** 6.00pm -8.00pm, giving you an opportunity to hear from myself in person and, more importantly, the subject leaders of the options subjects. This will give you the chance to ask more detailed questions and seek clarification on anything you are unclear about.

Although some personnel have changed with new subject leaders in post and there have been some slight variations to courses, all the videos have been quality assured by senior staff at the school and we feel that they still offer you a valuable insight into the choices your child will be making. One point to note is that there is not a video for Construction as this is a new course starting this year. If your child is interested in this course, please ensure that you visit Mrs Barker, Head of Technology, on the **10 March**.

So, in summary, please enjoy these videos and take them as a starting point for your information gathering as you support your child in making this really important decision. Ignore any dates that may be mentioned, especially in my overview video, and refer to the FAQ document, the flipbook and the most up to date information for details of all the key dates. All email addresses within the videos are up to date and staff can be contacted directly using these if you require any further information.

We look forward to seeing you in person for the **Parents Evening** on **Wednesday 2 March** and on **Options Evening** the following week, **Thursday 10 March**.

Kind Regards

Paul Thornely

Assistant Headteacher
