

- Access Edulink via your web browser. Click on the “Update Information” icon.

- The first page displayed allows you to update your personal information, such as address, email and phone numbers. Please check these are correct, if they are not, please update these.
- From here click on your child’s name. This will bring up your child’s personal information. This allows you to update family members, addresses, dietary, medical and ethnic/cultural information, such as first language and religion.
- At the bottom of this page there is a section called “Parental Consent”. In here you are able to select if you give consent for your child to use their fingerprint for secure catering purposes, and if we can use their photographs. Then for school purposes. The tick box next to “Fingerprint Recognition Biometrics” needs to be selected.
- Then click save.
